U7 - The Black Gate - FAKE Cheat Room!?

Hopefully I got this right? 🙏

During U7 development a dev made himself a cheat room at this location. But when found out by [@RichardGarriott](#). He made some tiny alterations to it... 🙏

Is it possible to defeat LB in the room?

Don't think LB can die, period. When you cast armeggeddon only LB survives. :) I know I leveled up my character juuuuust to cast it. He's not super happy when you go visit him afterwards.

I once cast Armageddon, killed Lord British with the Black Sword and then took the Black Gate. Ton hell with it the Guardian can have its dead Britannia

I thought LB was literally unkillable. Richard mentioned you couldn't defeat him (in the fake cheat room). Maybe you could in normal circumstances?

In vanilla Ultima VII you can kill LB by having a metal plate in his castle fall on his head and behead him (base on a true story!). With Forge of Virtue though you can use the Black Sword power to kill Lord British whenever you wan by using the "Kill" power of Arcadion.

That one was planned... most were accidental/oversights!

Poisoned bread in Ultima IX is still the best ! (Though I'm not sure if that kills the plot or not...). Now we need to be able to kill Lord British in SotA.
